

# STERLING® ULTRA TRUEJET®

## The right paper – Production Inkjet Web Product

Sterling® Ultra TrueJet® is a matching line of coated papers to Sterling® Ultra for commercial print on production inkjet presses. Designed to meet the growing need for high-speed, personalized print runs, it offers solutions for full-color variable inkjet printing and an offset-like coating to meet market expectations with optics that easily allow you to choose the right Sterling® product for the right technology.

### ATTRIBUTES

A coated product that enables offset-like quality on production color inkjet presses

- Withstands moderate wet-rub
- Does not require use of bonding agents on press
- Has a surface structure that meets the demands of inkjet printing

A patented product with a coating structure open enough to rapidly absorb inkjet ink

- Allows water to absorb into the paper while keeping ink on the surface
- Resists smearing and guide roll build-up
- Provides offset-like print quality

A coated product with proven runnability and durability on some of the best-known, high-speed inkjet presses.

- Kodak Prosper Press
- HP Inkjet Presses without bonding agent

75 lb. (7 pt.) and 92 lb. (9 pt.) gloss covers and 75 lb. (9 pt.) matte cover offerings meet USPS minimum requirements

Manufactured in the USA with pride.
