

OptiLabel™ HB

BRING YOUR BRAND TO LIFE.

Designed to outperform in flexographic applications, OptiLabel™ HB brings everything to your label—premium brightness, blue-white shade, excellent opacity and semi-gloss finish—that shouts “best quality” from the shelf to the shopper.

OptiLabel™ HB is designed for high-end pressure sensitive label applications requiring premium label appearance. The coatings on this woodfree grade are well suited for flexographic printing. OptiLabel™ HB features premium brightness and an enhanced blue-white shade combined with high opacity and a semi-gloss finish. Reverse side coatings are compatible with pressure sensitive adhesives.

FEATURES:

- Coatings designed for flexographic printing
- Smooth, semi-gloss finish for premium print fidelity and image reproduction
- High strength for fast matrix stripping and runnability
- High brightness, high opacity and premium blue-white shade for optimal label appearance

APPLICATIONS:

- High-end pressure sensitive labels for flexographic printing

Billerud North America is a leading American operated producer of graphic, specialty and packaging paper and market pulp. Our name means quality and commitment, sustainability and integrity. We offer a variety of products, each made with pride in the USA and designed to build brands and business results for our customers. We make graphic paper products for direct mail, corporate collateral, catalogs, magazines and books, and specialty paper products, including release liner papers and label face stock for pressure sensitive, glue-applied and laminate applications. We produce packaging paper used in higher-end packaging and printing applications such as greeting cards, book covers, folders, labels and point-of-purchase displays. We also make market pulp used in printing, writing, specialty and packaging paper, facial and toilet tissue, and paper towels. For more information please visit billerud.com.
